

SGO 2024 WINTER MEETING

January 25-27, 2024
Olympic Valley, CA

WEDNESDAY, JANUARY 24, 2024

Time	Session	Location
4:00 pm - 7:00 pm	Registration	Lobby Alcove

THURSDAY, JANUARY 25, 2024

Time	Session	Location
6:30 am - 7:00 am	Registration, Breakfast, Exhibits	Lobby Alcove/ Alpine Ballroom
7:00 am - 8:30 am	Session I: Less is More (de-escalation & preventative care) <i>Moderators: Bradley Corr, MD; Jessica McAlpine, MD</i>	Grand Sierra Ballroom
8:30 am - 9:00 am	Break/Posters/Exhibits	Alpine Ballroom
9:00 am - 10:00 am	Session I (continued): Less is More <i>Moderators: Bradley Corr, MD; Jessica McAlpine, MD</i>	Grand Sierra Ballroom
10:00 am - 3:45 pm	Open Programming Break	
3:45 pm - 4:00 pm	Break/Posters/Exhibits	Alpine Ballroom
4:00 pm - 5:25 pm	Session II: Trials and Tribulations <i>Moderators: Britt Erickson, MD; Travis Sims, MD</i>	Grand Sierra Ballroom
5:25 pm - 5:55 pm	Break/Posters/Exhibits	Alpine Ballroom
5:55 pm - 7:00 pm	Session II (continued): Trials and Tribulations	Grand Sierra Ballroom
7:00 pm - 8:00 pm	Welcome Reception	Cascades Restaurant
8:00 pm - 9:30 pm	Industry Supported Symposium: It's a Whole New World: Navigating Therapeutics Options for Endometrial Cancer Presented by The GOG Foundation	Grand Sierra Ballroom

FRIDAY, JANUARY 26, 2024

Time	Session	Location
6:30 am - 7:00 am	Registration, Breakfast, Exhibits	Lobby Alcove/ Alpine Ballroom
7:00 am - 8:20 am	Session III: State of the Science and Controversies <i>Moderators: Mariam Al-Hilli, MD; Susan Modesitt, MD</i>	Grand Sierra Ballroom
8:20 am - 8:50 am	Break/Posters/Exhibits	Alpine Ballroom
8:50 am - 10:00 am	Session III (continued): State of the Science and Controversies <i>Moderators: Mariam Al-Hilli, MD; Susan Modesitt, MD</i>	Grand Sierra Ballroom
10:00 am - 3:45 pm	Open Programming Break	
3:45 pm - 4:00pm	Break/Posters/Exhibits	Alpine Ballroom
4:00 pm - 5:15 pm	Session IV: Tumor Board <i>Moderators: Floor Backes, MD; Rob Coleman, MD</i>	Grand Sierra Ballroom

FRIDAY, JANUARY 26, 2024 (Continued)		
Time	Session	Location
5:15 pm - 5:45pm	Break/Posters/Exhibits	Alpine Ballroom
5:45 pm – 7:00 pm	Session IV (continued): Tumor Board <i>Moderators: Floor Backes, MD; Rob Coleman, MD</i>	Grand Sierra Ballroom
7:00 pm - 8:00 pm	Networking Reception	Sun & Spa Deck

SATURDAY, JANUARY 27, 2024		
Time	Session	Location
6:30 am - 7:00 am	Registration, Breakfast, Exhibits	Lobby Alcove/ Alpine Ballroom
7:00 am - 8:15 am	Session V: It's Getting Hot in Here <i>Moderators: Rebecca Brooks, MD; Alberto Mendiavil, MD</i>	Grand Sierra Ballroom
8:15 am - 8:45 am	Break/Posters/Exhibits	Alpine Ballroom
8:45 am - 10:00 am	Session V (continued): It's Getting Hot in Here <i>Moderators: Rebecca Brooks, MD; Alberto Mendiavil, MD</i>	Grand Sierra Ballroom
10:00 AM	Meeting Adjourned	

*Times are subject to change.

Abstract Posters - available to view throughout the conference		
Abstract Number	Title	Author
1 - Rapid Fire	CA-125 KELIM Score Predicts Progression-Free and Overall Survival in Patients with Epithelial Ovarian Cancer Undergoing HIPEC at Time of Interval Cytoreductive Surgery	Gabriella Smith
2- Rapid Fire	Homologous Recombination Deficiency Scores Vary by Assay: How can we better harmonize results?	Kaitlyn Kincaid
3- Rapid Fire	Medicaid Expansion and Stage of Cervical Cancer Diagnosis	Sarah Heaps
4- Rapid Fire	Enhancing Sarcopenia Risk Assessment: Markedly Low Serum Creatinine Levels Are Independent Predictors of Major Postoperative Complications in Gynecologic Oncology Patients	Sonya Bharadwa
5- Rapid Fire	A prospective quality improvement initiative for pre-operative risk stratification and individualized lymph node assessment in patients with endometrial intraepithelial neoplasia (EIN)	Pamela Peters
6	Effect of GLP-1 receptor agonist therapy on endometrial cancer	Danielle Krause
7	Variations of genomic instability score (GIS) and BRCA mutations with age in ovarian cancer patients	Martins Ayoola-Adeola
8	¿Tiene dolor? Tong ma? Exploring the relationship between language, post-operative pain, and opiate use	Rachel Levy
9	Clinically node-positive cervical cancer: does surgery have a role?	Jenna Zimmerman
10	Vaginal Brachytherapy Does Not Improve Clinical Outcomes in Uterine Papillary Serous Carcinoma	Vaidehi Mujumdar
11	Financial toxicity amongst gynecologic oncology surgical patients	Devon Harris
12	Toxicity predicts response to treatment with lenvatinib/pembrolizumab	Paulina Haight

13	Incidence of Isolated Tumor Cells in Sentinel Lymph Node in early Cervical Cancer	Katelyn Furey
14	High-risk histology endometrial cancer and mismatch repair status: The impact of histologic subtype and MLH1 hypermethylation on outcomes.	Courtney Riedinger
15	Evaluation of anaphylactic reactions involving carboplatin and paclitaxel reported to the FDA from 1970 to 2023	Taryn Boucher
16	Treatment with a novel inhibitor of tryptophan catabolism attenuates development of an immune suppressed tumor microenvironment by decreasing expression of PD-L1 in ovarian cancer <i>in vitro</i> and <i>in vivo</i>	Jessica Floyd
17	Unnecessary Exclusion: Eligibility Criteria in Gynecologic Oncology Interventional Clinical Trials Impair Access to Trials	Sharonne Holtzman
18	Delayed Publication of Gynecologic Oncology Clinical Trials	Alice Darling
19	Patient Perspective on Virtual Pre-Chemotherapy Visits in Gynecologic Oncology	Monica Janke
20	Defining the Role of Cannabidiol's Effect in Ovarian Cancer	Ashley Greenwood
21	Onvansertib exhibits anti-tumorigenic effects in pre-clinical models of endometrioid endometrial cancer	Nikita Sinha
22	Nutritional status and its Impact on Cervical Cancer Patients treated with Immunotherapy	Julia Chalif
23	Prognostic Biomarker Validation in High Grade Serous Carcinoma with the Ovarian Tumor Tissue Analysis Consortium and the Multidisciplinary Ovarian Cancer Outcomes Group	Jordyn Tumas
24	Evaluation of real-world ocular toxicity during treatment with Mirvetuximab soravtansine	Susan Lang
25	Treatment patterns and outcomes of endometrial cancer patients with uterine-confined high-risk histology	Sarah Lee
26	Variables impacting postoperative length of stay for gynecologic cancer patients in the era of same day minimally invasive hysterectomy	Margaret Flanigan
27	The road less traveled: a mixed methods study of patterns and perceptions of training timelines amongst Gynecologic Oncology fellowship applicants, trainees, and graduates	Mary Towner
28	Racial Disparities in Malignant Cervical Cancer from 2000 to 2020	Ariel Cohen
29	Beyond the Scopes: Comparing Patterns and Outcomes in Traditional Laparoscopic Hysterectomy versus Robotic-Assisted Hysterectomy in Stage I Endometrial Cancers	Issac Domenech-Gonzalez
30	Mental Health in Gynecologic Oncologists: Unmet Needs, Barriers to Care, and Possibilities for Improvement	Rebekah Summey
31	Assessment of the five factor Modified Frailty Index in predicting postoperative complications and non-home discharge in patients undergoing interval cytoreductive surgery for ovarian cancer	Jennifer Hansen
32	Characterization of 'High Risk Other' Human Papillomavirus Genotypes	Caitlin Witt
33	The role of frozen pathology in the evaluation of lymph nodes for endometrial intraepithelial neoplasia: a cost-effectiveness model	Allison Walker

34	Assessment of the therapeutic use of myeloid growth factors in the treatment of patients with febrile neutropenia and gynecologic malignancies.	Florencia Scaglia Drusini
35	Trends in estimated percentage of patients with epithelial ovarian cancer eligible for and benefiting from PARP inhibitors over time	Erica Carballo
36	Response Rates to Immunotherapy in Recurrent & Progressive Endometrial Cancer: The Role of Race and Platinum-Sensitivity	Jennifer Wolf
37	Exploring the risk of HSIL conferred by comorbid metabolic conditions in context of oncologic racial disparities	Shreya Raman
38	Changing Demographics Cervical Cancer in the United States: An Update (2000-2022).	Kassandra Whitfield
39	Nutritional Risk Index as a prognostic factor in endometrial cancer patients receiving treatment with immunotherapy	Jessica Fulton
40	Feasibility of Obesity Management with Endocrinology Referral for Prescription of Weight Loss Medications in an Ethnically and Racially Diverse Gynecologic Oncology Clinic	Arjun Sarkar
