

New this year, advanced practice providers are invited to submit abstracts of their research, clinical insights, and innovative approaches for consideration as a poster at the SGO 2026 Allied Health Professionals Meeting, held October 16–18 in Chicago, IL. **The submission period closes Sunday, July 12, at 11:59 p.m. CST.**

Submission Guidelines

Submitting authors must:

1. Be a current advanced practice provider (APP).
2. Have substantially contributed to the work.
3. Disclose if the abstract has been previously presented at a national or international meeting. If so, it is ineligible. However, previous presentation at regional meetings is allowed.
4. Disclose if any data has been previously presented or published (ex: abstract submitted is an update on previously presented research). If part of the data has been previously published, the submitter must declare that the work being submitted contains substantial new or different data.
5. Include the NCT# for reports on clinical trials, if applicable.
6. Identify the presenting author, who agrees to attend the SGO 2026 Allied Health Professionals Meeting.
7. The presenting author must complete a disclosure by July 12, for the abstract to be considered.

Abstract submissions must clearly identify the following:

1. Title: indicate the nature of the investigation. (e.g. “Current Clinical HPV Genotyping”)
2. Objective(s): an introductory sentence indicating the purpose of the study
3. Methods: a brief description of pertinent experimental procedures, including statistical evaluation where appropriate
4. Results: a summary of the data
5. Conclusions: a statement of the conclusions
6. Character count limit: 3,000 (does not include title, authors, tables/graphs)

The abstract title and abstract should omit any references of institution as well as trade names to ensure a blinded review.
